**MEETING AGENDA
ENVIRONMENTAL PROTECTION COMMISSION
WALLACE STATE OFFICE BUILDING
DES MOINES, IOWA
September 21, 1992**

Meeting convenes at 10:00 a.m., Monday, September 21, 1992, in the fourth floor conference room.

Public Participation

10:30 a.m.

Appointments:

**Tom Isenhardt, ISU (Wetlands/Nitrogen Relationships)
Chicago, Central + Pacific Railroad (Item # 9A)**

11:00 a.m.

~~11:30 a.m.~~
1:00 p.m.

- 1. Approve Agenda.**
- 2. Approve Minutes of August 17, 1992.**
- 3. Director's Report. Information. (Wilson)**
- 4. Budget Status and Preparation Update. (Kuhn) Information.**
- 5. Environmental Monitoring Agreement - University Hygienic Laboratory. (Kuhn) Decision.**
- 6. Landfill Alternative Grant Awards. (Hay) Information.**
- 7. Final Rule--Chapters 40, 41, 42 and 43, Water Supplies, Laboratory Certification and Design and Operation. (Stokes) Decision.**
- 8. Monthly Reports. (Stokes) Information.**
- 9. Referrals to the Attorney General. (Stokes) Decision.**
 - (a) Chicago, Central & Pacific Railroad Company (Fort Dodge)**
 - (b) Bernard Sadler/Ger-Mar Farms (Allamakee County)**
- 10. 1993 Legislation Package. (Wilson) Decision.**
- 11. General Discussion**
- 12. Address Items for Next Meeting**

NEXT MEETING:

October 19, 1992

MEETING MINUTES

CALL TO ORDER

The meeting of the Environmental Protection Commission was called to order by Chairperson Hartsuck at 10:00 a.m. on September 21, 1992, in the Wallace State Office Building, Des Moines, Iowa.

COMMISSIONERS PRESENT

Verlon Britt
William Ehm
Richard Hartsuck, Chairperson
Rozanne King
Charlotte Mohr
Margaret Prah
Gary Priebe
Nancylee Siebenmann
Clark Yeager

ADOPTION OF AGENDA

The following adjustments were made to the agenda:

- Add: Appointment - Chicago, Central & Pacific Railroad - (Item #9a) 1:00 p.m.

Motion was made by William Ehm to approve the agenda as amended. Seconded by Charlotte Mohr. Motion carried unanimously.

APPROVED AS AMENDED

APPROVAL OF MINUTES

William Ehm noted that on Page 38, Environmental Technologies should be corrected to read Organic Technologies.

Motion was made by William Ehm to approve the meeting minutes of August 17, 1992, as amended. Seconded by Charlotte Mohr. Motion carried unanimously.

APPROVED AS AMENDED

DIRECTOR'S REPORT

Larry Wilson, Director, reported that he attended an open house at Organic Technologies composting facility last Friday and it is a very impressive operation. This facility received a Landfill Alternative Grant from the DNR.

Director Wilson informed the Commission that in the past two weeks 10,000 letters were sent to businesses and industries who may need a storm water permit. He recommended that any inquiries on this issue be referred to staff. He also stated that before the Commissioners leave today he will provide them with an informational brochure containing phone numbers of staff to call with questions regarding storm water permits.

Director Wilson reported that Deputy Director, Don Paulin, along with Al Stokes and Brian Tormey, attended a meeting at Vinton regarding Rosebar. He related that Rosebar's main problem is acquiring markets for their product. Mr. Wilson noted that there will be a meeting with University of Iowa within the next few weeks to discuss markets.

BUDGET STATUS AND PREPARATION UPDATE

Mark Slatterly, Bureau Chief, Budget and Grants Bureau, presented the following item.

Staff work on the FY93 budget and the Five Year Capital plan has been completed. As indicated last meeting, financial schedules for FY93 operations are attached. Information regarding the Groundwater fund is being prepared, and will be presented at the meeting. Work is proceeding on the recommendations for the FY94/5 budget request, and the commission will be briefed on the status of that effort.

Revenue and expenditure history is provided for FY90, FY91 and FY92 operations, both a summary and by division. Note that the accounting for FY92 is not yet complete. FY92 expenditures do not reflect a small number of bills relating to FY92 but not paid as of July 31. FY92 revenues require further adjustments relating to federal and earmarked reimbursements not yet received or transferred.

Due to the reassignment of the Coordination and Information functions, the "Director's Office" for FY93 includes the Information and Education function as well. The Legal staff has been moved to the Environmental Protection division. Outside of those exceptions, the expenditures are generally comparable from FY93 to previous years.

Similar financial schedules are available at the bureau and cost center levels upon request. This fiscal information will also be provided as background to the FY94 and FY95 request on financial schedules that will accompany the staff's recommendations to the commissions for the budget request.

The following schedules are attached:

1. Pages 1-2. Summary of Department operational revenues and expenditures.

2. Pages 3-4. Director's Office and Information and Education.
3. Pages 5-6. FY90, FY91 and FY92 Coordination and Information history.
4. Pages 7-8. Administrative Services Division.
5. Pages 9-10. Parks, Preserves and Recreation Areas Division.
6. Pages 11-12. Forests and Forestry Division.
7. Pages 13-14. Energy and Geological Services Division.
8. Pages 15-16. Environmental Protection Division.
9. Pages 17-18. Fish and Wildlife Division.
10. Page 19. Waste Management Assistance Division.

The DNR's Five Year Capital plan was presented to the NRC at their September meeting for review. Briefly, the plan assumes the existing levels of REAP, Fish and Wildlife, and Marine Fuel Tax funding for facilities and land acquisition. A total of \$58 million was recommended for the period FY93-FY98. That included \$19 million from REAP Open Spaces, \$5.4 million from REAP Land Management, \$21.7 million from the Fish and Wildlife trust, and \$12.2 million from the Marine Fuel Tax fund. Related federal aid is included in these amounts. For FY93, the capital budget is \$10.1 million. Detail regarding the projects and priorities is available upon request.

(Reports are shown on the following 12 pages)

TO: DNR and NRC Commissioners
FROM: Stan Kuhn, *SK*
SUBJECT: FY93 Division Budget Detail

The FY93 operating budget has been finalized. A copy of the overall summary and budgets for each division is attached for your information.

History is provided for FY90, FY91 and FY92. Note that the accounting for FY92 is not yet complete. FY92 expenditures do not reflect a small number of bills relating to FY92 but not paid as of July 31. FY92 revenues require further adjustments relating to federal and earmarked reimbursements not yet received or transferred.

Due to the reassignment of the Coordination and Information functions, the "Director's Office" for FY93 includes the Information and Education function as well. The Legal staff has been moved to the Environmental Protection division. Outside of those exceptions, the expenditures are generally comparable from year to year.

Additional detail at the bureau and program level is available upon request. This fiscal information will also be provided as background to the FY94 and FY95 request on financial schedules that will accompany the staff's recommendations to the commissions for the budget request.

The following schedules are attached:

1. Pages 1-2. Summary of Department operational revenues and expenditures.
2. Pages 3-4. Director's Office and Information and Education.
3. Pages 5-6. FY90, FY91 and FY92 Coordination and Information history.
4. Pages 7-8. Administrative Services Division.
5. Pages 9-10. Parks, Preserves and Recreation Areas Division.
6. Pages 11-12. Forests and Forestry Division.
7. Pages 13-14. Energy and Geological Services Division.
8. Pages 15-16. Environmental Protection Division.
9. Pages 17-18. Fish and Wildlife Division.
10. Page 19. Waste Management Assistance Division.

Mr. Slatterly distributed copies of the Groundwater Protection Fund status report and explained same.

Charlotte Mohr asked what will happen with the Big Springs Study at the end of 1993 when the money designated for that study is used up.

Mr. Slatterly responded that there is additional Oil Overcharge monies which will extend the Big Springs Study into 1994.

Director Wilson explained that when the available funds for specific projects and studies are used up, a decision will have to be made as to which programs are the most important to be funded through another source.

INFORMATIONAL ONLY

ENVIRONMENTAL MONITORING AGREEMENT - UNIVERSITY HYGIENIC LABORATORY

Mark Slatterly, Bureau Chief, Budget and Grants Bureau, presented the following item.

The Commission is requested to approve the FFY 1993 Agreement with the University Hygienic Laboratory. The agreement covers air quality monitoring and reporting, water quality monitoring - both ambient and compliance, analyses and reporting for the drinking water program and provision for analyses for the underground storage tank and uncontrolled sites programs.

As per the attached schedule, the total cost of this contract is estimated at \$606,069. This compares to \$609,730 for FFY 92.

Under section 455B.103, the DNR is required to contract with the UHL for these services, unless the required services cannot be provided by the UHL. This contract is a continuation of current work efforts and programs, with minor adjustments. The contract costs reflect UHL's best estimate of their actual costs plus the University of Iowa's indirect cost rate. Most of this contract is supported by Federal funds from the various EPA programs.

ARTICLE IX - ESTIMATED AGREEMENT BUDGET

------------------	------------	------------	------

TOTAL OF ALL THREE COLUMNS

606,069.00

* The amounts in this column will be divided up into four quarterly payments. They are not expected to change during the contract period.

** The amounts in this column are to be billed to the Department monthly or quarterly. The total amount may change during the contract period. These are only estimates of the final values.

***The amounts in this column will be billed to the Department when they are needed and will be paid in full at that time.

Mr. Slatterly gave a brief explanation of the monitoring agreement.

Motion was made by Rozanne King to approve an Environmental Monitoring Agreement with the University Hygienic Laboratory for FY 93, at a cost of \$609,069. Seconded by Nancylee Siebenmann. Motion carried unanimously.

APPROVED AS PRESENTED

LANDFILL ALTERNATIVE GRANT AWARDS

Teresa Hay, Division Administrator, Waste Management Assistance Division, presented the following item.

Fourteen (14) grant applications were selected for funding from the round of applications submitted the first Monday in June, 1992. A brief summary of each successful project follows for the Commission's information. Four (4) of the grant awards were for less than \$25,000. The other ten (10) grants will be brought to the Commission for contract approval at future meetings.

- 1) BES Industrial Services, Inc. \$283,500

The grant will be used to purchase additional equipment to manufacture plastic pellets which will then be sold to regional plastic injection and blow molding firms. The facility intends to provide an end use market for an estimated 200,000 tons of plastic wastes currently being landfilled. The facility located in Cedar Rapids, Linn County, and will serve eastern Iowa. Tom Bowser, President of BES, and Glen Stouwie, Vice President, are the principals.

- 2) Holnam Inc. \$220,000

To develop the capacity to burn tire derived fuel, whole tires and/or tire shreds, representing a 15 to 30% coal fuel replacement. Grant funds would be applied toward cement kiln modifications and equipment. Applicant facility is located in Mason City, Cerro Gordo County. Waste tires would be procured statewide. Garey Kropf is the plant manager for the Mason City facility. Holnam Inc. is headquartered in Oklahoma.

- 3) Brief Encounters Laundry Service \$119,673

To establish a laundry service for institutionalized adults (nursing homes, hospitals and other facilities) located in Storm Lake, Buena Vista County, and will serve a rural 6 county area including Buena Vista, Calhoun, Sac, Ida, Pocahontas, and Cherokee Counties. The laundry service will reduce the volume of disposable diapers currently being landfilled in this area. Grant

funds will be used for education/marketing, equipment, delivery vehicle and washable briefs. Pam Berg is co-owner of this venture.

4) Great River Regional Waste Authority \$195,185

To construct a transfer station in Louisa County, expand the recycling processing center in Lee County and to purchase equipment for initiation of additional urban curbside collection, rural drop-off collection and commercial collection in Louisa County and provide additional drop-off containers in rural Lee County. The total project involves Hancock County, Illinois as recommended in the regional comprehensive plan. Project funds requested are for the Iowa portion only. Ron Mace, Lee County Solid Waste Program Director is Project Manager.

5) Riverside Pallets \$150,840

To purchase necessary equipment to grind non-reusable wood pallets into marketable mulch, and animal bedding. The company is located in Riverside, Washington County and will serve a 21 county area of east central and southeastern Iowa. John Hahn is owner of Riverside Pallets.

6) Rathbun Area Solid Waste Management Commission \$107,350

For construction, equipment purchase, supplies and salaries to improve the operation of existing recycling facility in Appanoose County. The project will serve 11 cities within Appanoose County, the City of Seymour in Wayne County and Princeton MO. Ralph Alshouse is the Chair of the Rathbun Area Solid Waste Commission.

7) Mason City, City of \$123,596

To assist implementation of a curbside recycling program in the City of Mason City, Cerro Gordo County, through the purchase of equipment, building construction, and education materials. Vic Potter is the Director of Public Services.

8) East Central Iowa Council of Governments \$20,019

The projects of this position are designed to meet the educational needs of the residents of the 6 county region and be supportive of existing and future plans for waste management in the region. The educational campaign will include a step utility bill insert program on various topics (i.e. waste reduction, recycling, illegal dumping, composting, etc.); develop four (4) television programs for public access channels and made available statewide; develop a pilot storm sewer

labeling program; PSA's on various waste reduction and recycling topics and continuing support for the Waste Busters Program. Michael Singer is Executive Director.

9) Allamakee County Solid Waste Department \$52,292

Grant funding is for implementation of a rural Allamakee County recycling program. Grants funds will be used for building remodeling, equipment and labor. Bill Adam is the Allamakee County Solid Waste Coordinator.

10) Southwest 8 Senior Services \$6,114

A waste volume reduction project that replaces polystyrene meal containers, used in the agency's homebound meals program, with reusable plastic trays. The agency is located in Council Bluffs, Pottawattamie County. The meals program delivers over 8,300 homebound meals per month serving Cass, Fremont, Harrison, Mills, Montgomery, Page, Pottawattamie and Shelby Counties. Grant funds will be used in the purchase of reusable trays. Barbara Blocker is the Executive Director.

11) Environmental Exchange \$21,802

The Garnavillo, Clayton County, based business proposes to expand the existing newspaper recycling for livestock bedding operations. Grant funds will be utilized in the purchase of equipment. The project will serve Clayton, Allamakee, Winneshiek and Fayette Counties with the bedding marketed locally. Art Moellering is the owner.

12) Sioux City Utilities Department, Solid Waste \$300,000

To assist in the construction and purchase of equipment, for the Sioux City Regional Reduction, Recycling and Waste Management Center, Woodbury County. The project will immediately serve the City of Sioux City, Woodbury County with services made available to other areas in the Tri-State area. John Green is the Solid Waste Systems Manager.

13) Winneshiek County Landfill \$8,052

To initiate a no charge service at the Winneshiek County Landfill for collection of demolition material. Collected materials (i.e. doors, cabinets, windows, and other fixtures) would be free to those wishing them. The project would serve Winneshiek, Howard, and Clayton Counties. Grant funds would be used for building construction. Clay Arbogast is Manager of the Winneshiek County Landfill.

14) Humboldt Workshop, Inc.

\$38,182

To expand an existing material reclamation facility to include glass, tin cans, and paper located in the City of Humboldt. The project will serve Humboldt County excluding the Cities of Livermore, Renwick, Hardy, and Rutland. Grant funds will be used for the purchase of equipment and supplies. Mary Mulligan is Executive Director.

Ms. Hay briefly explained the project awards.

Discussion followed in regards to requiring Holnam, Inc., to use a certain percentage of Iowa tires in their operation.

Rozanne King asked if there are any requirements for an audit to monitor how a company spends the grant dollars.

Ms. Hay stated that the grant money is given on a reimbursement basis. Grant dollars are not given to a recipient until they have actually spent money on specific items. She added that a staff person will be visiting sites to make sure they have conformed to the requirements in their grant proposal.

Clark Yeager asked why Rosebar did not receive another grant.

Ms. Hay stated that the information they provided in regards to marketing was inadequate. Also, their request was for continuation of what their original grant was based on rather than for additional or different services or activities.

INFORMATIONAL ONLY

PUBLIC PARTICIPATION

Chairperson Hartsuck announced public participation at 10:55 a.m.; no one requested to speak.

FINAL RULE--CHAPTERS 40, 41, 42 AND 43, WATER SUPPLIES, LABORATORY CERTIFICATION AND DESIGN OPERATION

Allan Stokes, Division Administrator, Environmental Protection Division, presented the following item.

The Commission is requested to give final approval to the Water Supply rules, as modified through the public hearing process. The rules incorporate U.S. EPA regulations for inorganic chemicals, synthetic organic chemicals and lead and copper, and implement Sections 455B.113 & 455B.114 concerning environmental laboratory certification.

- The rules amend current rules for inorganic and synthetic organic chemicals including revising or setting new standards for maximum contaminant levels, monitoring requirements, and analytical procedures;

14

- Set or revise MCLs for 8 inorganic and 30 synthetic organic chemical contaminants;
- Propose lead and copper rules consisting of a treatment technique requirement that includes tap water monitoring, corrosion control optimization, source water treatment, lead service line replacement, and public education; and
- Revise drinking water laboratory certification requirements to implement Code Sections 445B.113 and 455B.114 by establishing certification procedure and fees.

The proposed rules were presented at the April Commission meeting as an informational item. They were approved for public hearing at the May Commission meeting. Six public hearings were held in July, 11 written comments were received. The comments are discussed in the attached Public Participation Responsiveness Summary. Appropriate technical and grammatical corrections were made to the final rule.

(A copy of the rule is on file in the department's Records Center)

Mr. Stokes answered questions about various sections of the rules.

Margaret Prah1 was particularly concerned with language in 43.3(2)c(1) and suggested that the words "while significantly reducing costs" be deleted.

Nancylee Siebenmann was concerned with language in 41.10(2) pertaining to notification of the public when contaminants pose an acute risk to human health.

Discussion followed regarding whether to switch the placing of section 41.10 (1) with 41.10(2) or to simply add clarifying language. Consensus of the Commission was to add new language.

Gary Priebe questioned the possible regulation of wells used by a car wash and wells for application of agricultural chemicals in relation to human consumption.

Mr. Stokes stated that the primary concern in this area is with dermal contact.

Margaret Prah1 also expressed concern with 41.10(2)b in regards to monitoring violation reporting and notification to the public.

Mr. Stokes stated that he will check on the issues of concern to the Commission and report his findings this afternoon. He will also provide possible language changes to the rules.

ACTION DELAYED UNTIL LATER IN MEETING
--

APPOINTMENT - TOM ISENHART

Chairperson Hartsuck reviewed that last month the Commission toured a waste management facility at Granger and it seemed appropriate to follow up with an educational session on the science of what they saw. He presented background information on Tom Isenhardt.

Tom Isenhardt, Iowa State University, spoke on wetlands water quality values and noted that the system the Commission visited in Granger is in it's early stages. He presented information on how these systems actually function and gave a slide presentation taking the focus down to a scale where these processes are actually taking place.

Discussion followed.

REFERRALS TO THE ATTORNEY GENERAL

Mike Murphy, Bureau Chief, Legal Services Bureau, presented the following item.

The Director requests the referral of the following to the Attorney General for appropriate legal action. Litigation reports have been provided to the Commissioners and are confidential pursuant to Iowa Code section 22.7(4). The parties have been informed of this action and may appear to discuss this matter. If the Commission needs to discuss strategy with counsel on any matter where the disclosure of matters discussed would be likely to prejudice or disadvantage its position in litigation, the Commission may go into closed session pursuant to Iowa Code section 21.5(1)(c).

- a. Chicago, Central & Pacific Railroad Company - Fort Dodge
- b. Bernard Sadler/Ger-Mar Farms - Allamakee County

Chicago, Central and Pacific Railroad Company

Mr. Murphy explained that this matter involves a history of petroleum related site contamination. He noted that earlier efforts to resolve the matter resulted in their installation of an oil/water separator system on their property. The permit for the system required ongoing monitoring and discharge limits. Failure of the company to perform monitoring requirements led to an Administrative Order in March 1990. Since then, the monitoring has been deficient in ten months. Monitoring that was done disclosed ongoing violations of the permit limits. In July 1992, there was a significant petroleum discharge to the Des Moines River.

Appointment - Jim Moschetti

Jim Moschetti, Chief Mechanical Officer for Chicago, Central & Pacific Railroad, provided a history of the railroad and noted that his staff is responsible for monitoring the collection system at Fort Dodge. He stated that on July 23, 1992, a spill was originally reported as 500 gallons of fuel oil into the Des Moines River. He related that an engineering firm later confirmed that the spill was 160 gallons. Mr. Moschetti explained how the separator works and noted that two gate valves were inoperable because extreme rainfall runoff had exceeded capacity of the well. He related that the excess capacity shorted out the valves and they did not know it. He emphasized that they hired an engineering company to improve the system so that it is waterproof. He also spoke of problems they encountered with shipping their monitoring samples in glass bottles which were subsequently broken in the mail. They have now redesigned their packaging with styrofoam to avoid breakage. In conclusion, Mr. Moschetti stated that the company feels comfortable with the proposals they made to correct their problems.

Discussion followed in regards to exceeding effluent limits in May 1992; why efforts were not taken earlier to correct problems; the type of drainage used in the system; and problems with grading pans being plugged.

Motion was made by Margaret Prahl for referral to the Attorney General's Office. Seconded by Nancy Lee Siebenmann. Motion carried unanimously.

REFERRED

FINAL RULE--CHAPTERS 40, 41, 42 AND 43, WATER SUPPLIES, LABORATORY CERTIFICATION AND DESIGN AND OPERATION (CONTINUED)

Mr. Stokes explained that in answer to a question (on page 8) about contaminants added to the water under circumstances controlled by the water consumer/user, etc., that was language specifically included at the request of the Water Utilities Council. Their comments are noted on page 4 of the Responsiveness Summary.

Mr. Stokes distributed the following suggested language changes to the rule as a result of the Commission's concerns stated earlier.

Chapter 41 - 41.2(1)(c) (5)(3) - Page 9: Add to end of last sentence; "and notify the public in accordance with 41.10(2)"a"(1)&(2)."

Chapter 41 - 41.10(2) - Page 69: Add to heading title the following; "[ACUTE VIOLATIONS MUST FOLLOW PUBLIC NOTIFICATION PROVISIONS OF BOTH 41.10(2)(A)(1)&(2).]"

Mr. Stokes pointed out that in Chapter 43, on page 6 (third set), under Item C, the words "while significantly reducing costs" will be deleted.

Mr. Stokes explained where new language would be placed and how it would affect the rules.

Brief discussion followed.

Motion was made by Nancylee Siebenmann to approve Final Rule--Chapters 40, 41, 42 and 43, Water Supplies, Laboratory Certification and Design and Operation with the suggested language changes. Seconded by Charlotte Mohr. Motion carried unanimously.

APPROVED AS AMENDED WITH CLARIFYING LANGUAGE

MONTHLY REPORTS

Allan Stokes, Division Administrator, Environmental Protection Division, presented the following item.

The following monthly reports are enclosed with the agenda for the Commission's information.

1. Rulemaking Status Report
2. Variance Report
3. Hazardous Substance/Emergency Response Report
4. Enforcement Status Report
5. Contested Case Status Report

Members of the department will be present to expand upon these reports and answer questions.

(Reports are shown on the following 17 pages)

TOPIC: Report of Hazardous Conditions

During the period August 1, 1992 through August 31, 1992, reports of 107 hazardous conditions were forwarded to the Central Office. Two incidents are highlighted below. A general summary and count by field office is attached. These do not include releases from underground storage tanks, which are reported separately.

Date Reported and County	Description: Material, Amount, Date of Incident, Cause, Location, Impact	Responsible Party	Response and Corrective Actions
08/07/92 Polk	A drum of Vorlex pesticide fell over as a trailer was being loaded on August 7, 1992. Approximately 20 gallons of the material was spilled. The worker loading the truck was sent to the hospital for observation and as a precaution.	Jacobson Warehouse 1500 Delaware Ave Des Moines, Iowa	The Des Moines Haz Mat team assisted in the cleanup. The material was absorbed and will be disposed of as a hazardous waste. The building was ventilated. Extra layers of protective clothing and gloves were worn because the most effective suits for the response were not available.
08/14/92 Polk	The cross over line on a semi fuel tank was damaged by debris on the highway. Fifty gallons of diesel was spread along one quarter mile of pavement.	VT Transportation 1000 Industrial Park Holstein, Iowa	The IDOT determined that no safety hazard existed. The diesel fuel evaporated. No further action was required.

Environmental Protection Commission Minutes

September 1992

DEPARTMENT OF NATURAL RESOURCES ENVIRONMENTAL PROTECTION COMMISSION CONTESTED CASES SEPTEMBER 1, 1992

DATE RECEIVED	NAME OF CASE	ACTION APPEALED	PROGRAM	ASSIGNED TO	STATUS
7-30-90	Key City Coal Gas Site; Murphy Trust & Howard Pixler	Site Registry	HW	Landa	Decision appealed (Pixler). Motion to intervene denied 2/17/91 (Murphy Trust)
8-01-90	J.I. Case Company	Site Registry	HW	Murphy	Hearing set for 10/30/92.
9-10-90	IBP, inc. Columbus Junction	Administrative Order NPDES Permit	WW	Hansen	Briefs submitted; oral arguments 9/92.
9-12-90	Michael & Joyce Haws; George H. Gronau	Administrative Order	UT	Wornson	Attorney finalizing settlement.
9-20-90	Duane Schwarting	Variance Denial	SW	Kennedy	Hearing continued.
10-15-90	Westside General Store Corp.	Administrative Order	UT	Wornson	Negotiating before filing.
10-18-90	Harlan Pruess	Claim	HC	Murphy	Hearing set for 10/01/92.
11-15-90	Springwood Enterprises, Inc.	Water Use Permit	WR	Clark	Hearing continued.
12-04-90	United States Gypsum Company	Administrative Order	SW	Kennedy	Negotiating before filing.
12-21-90	Des Moines, City of	Administrative Order	UT	Wornson	Settlement proposed.
12-27-90	McAtee Tire Service, Inc.	Administrative Order	SW	Kennedy	Hearing continued.
1-07-91	Joe E. Eggers, Jr.; Joe and Mary Eggers	Administrative Order	SW	Kennedy	Negotiating before filing.
1-09-91	Iowa Southern Utilities	Administrative Order	HC	Preziosi	Hearing continued to 2/09/93.
1-28-91	McDowell Dam #1 & #2	Administrative Order	FP	Clark	Negotiating before filing.
3-08-91	ADM - Cedar Rapids	Conditional Permit	AQ	Preziosi	Hearings begun.
3-21-91	Molkenthin Swine Operation	Administrative Order	WW	Murphy	Settled.
3-22-91	Mitchell Bros. Boars and Gilts	Administrative Order	WW	Murphy	Negotiating before filing.
5-09-91	Oskaloosa Food Products Corp.	Administrative Order	WW	Hansen	Negotiating before filing.
5-16-91	Oskaloosa, City of	Administrative Order	WW	Hansen	Negotiating before filing.
5-20-91	Great Rivers Coop--Lockridge	Site Registry	HC	Murphy	Settlement proposed.
7-15-91	Des Moines Independent School District - North High School	Site Registry	HC	Murphy	Hearing continued.
7-22-91	Rupp Tire	Administrative Order	UT	Wornson	Schedule informal hearing.
7-24-91	Alter Trading Corp. (Davenport)	Administrative Order	SW	Kennedy	Negotiating before filing.
7-27-91	Chicago North Western; Dennis Bell; Phillips Petroleum; Amoco Oil Co.	Administrative Order	HC	Murphy	Hearing continued. Compliance initiated.
8-05-91	Rathbun Area Solid Waste Comm.	Permit Conditions	SW	Kennedy	Appeal dismissed.
8-23-91	Wally's Paint Shop	Administrative Order	AQ	Preziosi	Penalty paid. Settled.
8-29-91	Iowa Southern Utilities	Certificate to Construct	AQ	Preziosi	Written testimony filed.
9-04-91	Duane Arnold Energy Center	Permit Condition	WW	Hansen	Information received 3/16/92; under review by EPD.
9-16-91	Monona Co. SLF Agency	Administrative Order	SW	Kennedy	Hearing continued.
9-25-91	Archer Daniels Midland	Administrative Order	SW	Kennedy	Negotiating before filing.
9-27-91	Battle Creek, City of	Administrative Order	WS	Hansen	WS section comment letter sent 6/16/92.

Nancy Lee Siebenmann asked if a court date has been set for the Environmental Advocates law suit.

Mr. Murphy responded that the court date is scheduled for October 8.

Clark Yeager asked why the Attorney General's Office took the Ted Diehl case without it coming before the Commission.

Mr. Stokes explained that if there is a situation where there might be criminal type activity, his staff can ask the Attorney General's Criminal Investigation Unit to assist. Because of circumstances in this particular case the Attorney General's Office felt it was prosecutable.

INFORMATIONAL ONLY

REFERRALS TO THE ATTORNEY GENERAL'S OFFICE (CONTINUED)

Bernard Sadler/Ger-Mar Farms

Mr. Murphy briefed the Commission on this case involving illegal dumping activities.

Motion was made by Rozanne King for referral to the Attorney General's Office. Seconded by Margaret Prahl. Motion carried unanimously.

REFERRED

GENERAL DISCUSSION

Rozanne King reported on an ISOSWA conference she attended in Sioux City.

Charlotte Mohr commented that Toxic Cleanup Days in Cerro Gordo went very well.

Discussion took place on the Conflict of Interest rules and the Ethics Bill.

Chairperson Hartsuck commented that the Commission should have more of the educational sessions similar to what was provided today.

Director Wilson distributed copies of a question and answer sheet on Storm Water Permits.

1993 LEGISLATION PACKAGE

Director Wilson distributed copies of the following proposed bill language and explained same.

ENVIRONMENTAL PROTECTION LEGISLATIVE PROPOSALS 1993 LEGISLATIVE SESSION

AIR QUALITY AUTHORITY CORRECTIONS NECESSARY TO IMPLEMENT THE NEW FEDERAL CLEAN AIR ACT

During the 1992 legislative session, the department proposed several amendments to our air quality authority which are necessary to implement the new federal clean air act. The amendments were not adopted in final form during 1992. The changes are absolutely needed this year, as the department must submit its final package to US EPA in November 1993 in order for Iowa to retain delegation of the federal air quality program.

PROPOSED LEGISLATIVE LANGUAGE:

Reintroduce SF 2229 as drafted and introduced during the 1992 legislative session (attached).

CREATE AN ENVIRONMENTAL TRUST FUND

Establish a trust fund which would receive user fees in air quality, solid waste, water supply, and water quality areas. These funds will be used to fund the administrative costs of the department in operating the programs of appropriate sections of Chapter 455B. User fees would be obtained by requiring that rules be adopted which establish a schedule of fees for permits and conditional

permits issued by the department, and a schedule of fees to be periodically assessed for the administration of the permits.

This proposal was introduced during the 1992 session, but a final bill was not adopted. Funding of environmental protection programs is now at a critical stage. Wastewater program funding was handled through the old construction grants program; this source was eliminated in 1990, any reserve has been depleted. Solid waste programs have been operating off of oil overcharge funds, and this funding source will be exhausted after 1993. The drinking water program needs to be expanded due to increasing federal requirements. An adequate and reliable source of funding for these programs needs to be established.

PROPOSED LEGISLATIVE LANGUAGE:

Reintroduce SF 2305 as drafted during the 1992 legislative session (attached), with the following changes:

SECTION 1. Page 4, line 3 by deleting the word "permit".

SECTION 2 Page 10, line 23 by adding the following new section after the word "section455B104", and renumbering subsequent sections.

Section 19. Section 455B.307, subsection 3, Code 1991, is amended to read as follows:

3. Any person who violates any provision of part 1 of this division or any rule or any order adopted or the conditions of any permit or order issued pursuant to part 1 of this division shall be subject to a civil penalty, not to exceed five thousand dollars for each day of such violation. Moneys collected under this section shall be deposited in the hazardous substance remedial fund created pursuant to section 455B.423.

SECTION 3. Page 10, line 23, by adding the following new section after section 2 above, and renumbering subsequent sections.

Section 20. Section 455B.340, Code 1991, is amended to read as follows:

Any person who violates any provisions of this part 2 of division IV or rules adopted under said part, or any order of the department or director issued pursuant to said part or any order of the department or director issued pursuant to said part, shall be guilty of a serious misdemeanor and, in addition, the person may be enjoined from continuing such violation. Each

day of continued violation after notice that a violation is being committed shall constitute a separate violation.

ELIMINATE 10 YEAR MORITORIUM ON WASTEWATER TREATMENT PLANT UPDATES

This provision (455B.173(3)), which prevents the department from requiring compliance with more stringent effluent limits for ten years after construction of a facility, is not consistent with the federal water pollution control act. The US EPA has made it clear that failure to remove this provision will be cause for them to supersede our state program.

PROPOSED LEGISLATIVE LANGUAGE:

SECTION 1. Section 455B.173, subsection 3, unnumbered paragraph 3, Code 1991, is amended by deleting the paragraph.

FUNDING FOR WASTE REDUCTION ASSISTANCE PROGRAM (WRAP)

This technical assistance program helps large businesses to reduce their solid and hazardous waste generation. It is currently funded by a US EPA grant; however, FY 93 is the final year for funding. Alternative funding sources have been proposed during the last two legislative sessions, but have not yet been adopted.

PROPOSED LEGISLATIVE LANGUAGE:

SECTION 1. Section 455B.423, subsection 2, Code Supplement 1991, is amended to read as follows:

2. The Director may use the fund for any of the following purposes:
 - a. Administrative services for the identification, assessment and cleanup of hazardous waste or hazardous substance disposal sites.
 - b. Payments to other state agencies for services consistent with the management of hazardous waste or hazardous substance disposal sites.
 - c. Emergency response activities as provided in part 4 of this division.
 - d. Financing the nonfederal share of the cost of cleanup and site rehabilitation activities as well as postclosure operation and maintenance costs, pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980.
 - e. Financing the cost of cleanup and site rehabilitation activities as well as postclosure operation and maintenance costs of hazardous waste or hazardous substance disposal sites that do

not qualify for federal cost-sharing pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980.

f. Through agreements or contracts with other state agencies, work with private industry to develop alternatives to land disposal of hazardous waste or hazardous substances including, but not limited to, resource recovery, recycling, neutralization, and reduction.

g. Administration of the waste reduction assistance program or other activities related to assisting Iowa business and industry to reduce, recycle, or otherwise reclaim waste materials generated or processed.

~~However, at least seventy-five percent of the fund shall be used for the purposes stated in paragraphs "d" and "e".~~ At least fifty percent of the fund shall be used for the purposes stated in paragraphs "d" and "e". Twenty percent shall be used for the purposes stated in paragraph "g". The remainder shall be used for the purposes stated in paragraphs "a", "b", "c", and "f".

SECTION 2. Section 455B.424, subsection 1, Code Supplement 1991, is amended to read as follows:

1. The person who generates hazardous waste or the owner or operator of a hazardous waste disposal facility who transports hazardous wastes off of the site where the hazardous waste was generated or off the disposal facility site shall pay a fee of ~~ten~~ twenty-five dollars for each ton of hazardous waste transported off the site, excluding the water content of any waste that is transported to another facility under the ownership of the generator for the purposes of waste treatment or recycling.

SECTION 3. Section 455B.424, subsection 2, Code Supplement 1991, is amended to read as follows:

2. A person who generates hazardous waste or owns or operates a facility which treats or disposes of hazardous waste at the facility shall pay the following fees:

a. ~~Forty~~ One-hundred dollars for each ton of hazardous wastes placed, deposited, dumped, or disposed of onto or into the land at a disposal facility ~~in Iowa~~.

b. Fifty dollars for each ton of hazardous waste which is treated by incineration.

~~b.c.~~ Two ~~Five~~ dollars for each ton of hazardous waste destroyed or treated at the generator's site or at the disposal facility to render the hazardous waste non-hazardous.

~~c.d.~~ Two dollars for each ton of hazardous waste transported off the site for recycling at another facility.

SECTION 4. Section 455B.424, subsection 5, Code Supplement 1991, is amended to read as follows:

5. In addition to other fees imposed by this section, a person that is required to obtain a United States environmental protection agency identification number shall pay the following fees:

a. If the person generates more than one thousand kilograms of hazardous waste per month, a fee of ~~two hundred fifty~~ one thousand dollars.

b. If the person generates hazardous waste but does not generate more than one thousand kilograms of hazardous waste per month, a fee of ~~twenty-five~~ one hundred dollars.

c. If the person is a transporter of hazardous waste, a fee of ~~twenty-five~~ one thousand dollars.

d. If the person operates a hazardous waste treatment, storage, or disposal facility, a fee of ~~twenty-five~~ one thousand dollars.

SECTION 5. Section 455B.424, subsection 7, Code Supplement 1991, is amended to read as follows:

7. A person required to pay fees by this section who fails or refuses to pay the fees imposed by this section shall be assessed a penalty of ~~fifteen~~ five percent of the fee due, for each month the fee is overdue. The penalty shall be paid in addition to the fee due.

SECTION 6. Section 455B.424, subsection 8, Code Supplement 1991, is amended to read as follows:

8. Moneys collected or received by the department pursuant to this section shall be transmitted to the treasurer of state for deposit in the hazardous waste substance remedial fund.

CORRECTIVE AMENDMENT TO SOLID WASTE TONNAGE FEE LANGUAGE

During the 1992 legislative session, new language was introduced which would require landfill operators to charge higher tonnage fees to anyone hauling solid waste from outside the comprehensive plan area. However, the language needs fine tuning to accomplish legislative intent, which is to provide a financial incentive for disposing of waste within the comprehensive plan area.

PROPOSED LEGISLATIVE LANGUAGE:

SECTION 1. Section 455B.310, subsection 2, paragraph a, Code 1992, is amended to read as follows:

a. ~~The tonnage fee is twenty-five cents per ton of solid waste. However, f~~For the year beginning July 1, 1988, the tonnage fee is one dollar and fifty cents per ton of solid waste and shall increase annually in the amount of fifty cents per ton through July 1, 1992. A city, county,

or private agency which files a comprehensive plan to operate a sanitary landfill under section 455B.306 and which accepts solid waste from a service area not included in but contiguous to the service area included in the comprehensive plan, shall charge a ~~tonnage~~ tipping fee for the disposal of that solid waste which is at least the amount of the current ~~tonnage~~ tipping fee charged by the sanitary landfill representing the service area from which the solid waste originated, whichever amount is greater. A sanitary landfill which accepts solid waste from a service area not included in and not contiguous to the service area included in the comprehensive plan shall charge a ~~tonnage~~ tipping fee for the disposal of the solid waste which is three hundred percent of the tipping fee otherwise established in this section otherwise charged by the landfill. The additional fee charged and the moneys collected shall be used in accordance with section 455E.11, subsection 2, paragraph "a", subparagraph (11), subparagraph subdivision (b).

WASTE OIL COLLECTION

Current state law does not ensure reasonable access by the public to proper facilities for disposal of this waste. Some options for providing more access are to require certain retailers to collect it, or to require every county and/or city above a certain population to provide at least one collection site.

PROPOSED LEGISLATIVE LANGUAGE (three options):

OPTION 1.

SECTION 1. Section 455D.13, subsection 2, Code 1991, is amended to read as follows:

2. A person offering for sale or selling oil at retail in the state, if the person also provides motor vehicle repair or maintenance services, or sells or offers for sale motor vehicle fuel, shall do the following:

- a. Accept at the point of sale, waste oil from customers, ~~or~~ and post notice ~~of locations where stating that a customer may dispose of waste oil at that location.~~
- b. Post written notice that it is unlawful to dispose of waste oil in a sanitary landfill.

SECTION 2. Section 455D.13, Code 1991, is amended by adding the following new subsection.

NEW SUBSECTION. 3. A person offering for sale or selling oil at retail in the state, other than persons listed in subsection 2, shall do the following:

- a. Accept at the point of sale, waste oil from customers, or post notice of locations where a customer may dispose of waste oil.
- b. Post written notice that it is unlawful to dispose of waste oil in a sanitary landfill.

OPTION 2

SECTION 1. Section 455D.13, Code 1991, is amended by adding the following new subsection:

NEW SUBSECTION. 3. Each county in the state shall provide a location where residents may dispose of waste oil.

OPTION 3.

SECTION 1. Section 455D.13, Code 1991 is amended by adding the following new subsection:

NEW SUBSECTION. 3. Each city and county in the state with a population greater than 10,000 shall provide a location where residents may dispose of waste oil.

BOTTLE BILL CORRECTIONS

Make the following corrections, to reflect the types of containers now marketed, and provide consistency in implementation of the program.

(1) Change 455C.1 definitions, to include non-alcoholic beers and wines, and non-carbonated juices and waters. These newly marketed products are sold in the same types of containers that regulated beverages are contained in.

(2) Modify 455C.14, which deals with flattened metal beverage containers, by deleting references to metal and "beer" distributors. This would require that all beverage distributors provide for collection of containers, and all containers except broken glass would be accepted.

PROPOSED LEGISLATIVE LANGUAGE:

SECTION 1. Section 455C.1, subsection 1, Code Supplement 1991, is amended to read as follows:

1. "*Beverage*" means wine as defined in section 123.3, subsection 7, alcoholic liquor as defined in section 123.3, subsection 8, beer as defined in section 123.3, subsection 10, low or non-alcoholic beers and wines, mineral water, soda water and similar carbonated soft drinks in liquid form, non-carbonated waters and juices in liquid form and intended for human consumption.

SECTION 2. Section 455C.14, Code 1991, is amended to read as follows:

1. If the refund value indication required under section 455C.5 on an empty nonrefillable metal beverage container is readable but the redemption of the container is lawfully refused by a dealer or person operating a redemption center under other sections of this chapter or rules adopted pursuant to these sections, the container shall be accepted and the refund value paid to a consumer as provided in this section. Each ~~beer~~ distributor selling nonrefillable metal beverage containers in this state shall provide individually or collectively by contract or agreement with a

dealer, person operating a redemption center or another person, at least one facility in the county seat of each county where refused empty nonrefillable metal beverage containers having a readable refund value indication as required by this chapter are accepted and redeemed. In cities having a population of twenty-five thousand or more, the number of the facilities provided shall be one for each twenty-five thousand population or a fractional part of that population.

2. A beer distributor violating this section is guilty of a simple misdemeanor.

MINIMIZE PRODUCT PACKAGING AND INCREASE PACKAGE RECYCLABILITY

Model legislation, developed by the Coalition of NE Governors, would require excess packaging to be reduced and encourage recyclability of packaging that is used. This legislation could be introduced as an augmentation to current waste reduction efforts in Iowa.

PROPOSED LEGISLATIVE LANGUAGE:

(code language will be ready at October meeting)

INCLUDE COLLECTION OF RECYCLABLES AS A REQUIREMENT IN CONSTRUCTION

This proposal would require that new, multi-family and business construction provide facilities for the collection of recyclables, if they provide for the collection of solid waste. Collection could include, but would not have to be limited to, paper, plastic, glass, and metal.

PROPOSED LEGISLATIVE LANGUAGE:

(code language will be ready at October meeting)

MINIMUM RECYCLED CONTENT OF NEWSPRINT

Require newspapers to meet certain percentages of recycled content newsprint in their operations. In addition, glossy inserts could be banned, and a requirement added that they be printed on recyclable paper.

PROPOSED LEGISLATIVE LANGUAGE:

(code language will be ready at October meeting)

EXPANDING PROCUREMENT POLICIES TO INCLUDE LOCAL GOVERNMENTS

Require local governments to establish procurement policies which encourage use of products with recycled content. An extension of this would be to require that local governments also institute office recycling programs.

PROPOSED LEGISLATIVE LANGUAGE:

(code language will be ready at October meeting)

STORMWATER PERMIT AUTHORITY TECHNICAL CORRECTION

Add Part "1" to 455B.103A (stormwater general permit enforcement authority). The number "1" was inadvertently left out of language that was in the department's appropriations bill this past session.

PROPOSED LEGISLATIVE LANGUAGE:

SECTION 1. Section 455B.103A, subsection 5, Code 1992, is amended to read as follows:

5. The enforcement provisions of division III, part 1 of this chapter, apply to general permits for stormwater discharge.

ESTABLISHING FEES ON PESTICIDES AND FERTILIZERS TO SUPPORT WATER TREATMENT COSTS

Additional standards and monitoring requirements for synthetic organic contaminants including pesticides as well as the presence of nitrate in drinking water places a significant burden on water supplies for both monitoring and treatment costs. The cost of the treatment is high, and is borne by the consumers. It has been suggested that it might be appropriate for sources of the contaminants to share in at least the capitol cost of the added treatment. The language below provides for increased fees on the registration of pesticides by manufacturers as well as on the sale of fertilizer to generate the funds needed to provide for the cost share. Since the revenues from the fees will be received over time, the plan calls for the reimbursement of capitol costs up to 50% with the details of the reimbursement left to rule. A specific plan for disbursement would further complicate a chapter that is already quite difficult to understand and would make it more difficult to deal with the different treatment that may be required for each facility within the context of a 50% cost share.

PROPOSED LEGISLATIVE LANGUAGE:

SECTION 1. Section 206.12, subsection 3, Code 1993 , is amended to read as follows:

3. The registrant, before selling or offering for sale any pesticide for use in this state, shall register each brand and grade of such pesticide with the secretary upon forms furnished by the

secretary, and the secretary shall set the registration fee annually at ~~one-fifth~~ two-fifths of one percent of gross sales within this state with a minimum fee of two hundred fifty dollars and a maximum fee of ~~three-ten~~ thousand dollars for each and every brand and grade to be offered for sale in this state except as otherwise provided. The annual registration fee for products with gross annual sales in this state of less than one million five hundred thousand dollars shall be the greater of two hundred and fifty dollars or ~~one-fifth~~ two-fifths of one percent of the gross annual sales as established by affidavit of the registrant. The secretary shall adopt by rule exemptions to the minimum fee. Fifty dollars of each fee collected shall be deposited in the treasury to the credit of the pesticide fund to be used only for the purpose of enforcing the provisions of this chapter and the remainder of each fee collected shall be placed in the agriculture management account of the groundwater protection fund.

SECTION 2. Section 200.8, subsection 4 is amended to read as follows:

4. In addition to the fees imposed under subsection 1, a groundwater protection fee shall be imposed upon nitrogen-based fertilizer. The fee shall be based upon the percentage of actual nitrogen contained in the product. An eighty-two percent nitrogen solution shall be taxed at the rate of one dollar and fifty cents ~~seventy-five cents~~ per ton. Other nitrogen-based product formulations shall be taxed on the percentage of actual nitrogen contained in the formulations with the eighty-two percent nitrogen solution serving as the base. The fee shall be paid by each licensee registering to sell fertilizer to the secretary of agriculture. The fees collected shall be deposited in the agriculture management account of the groundwater protection fund. The secretary of agriculture shall adopt rules for the payment, filing, and collection of groundwater protection fees from licensees in conjunction with the collection of registration and inspection fees. The secretary shall, by rule allow an exemption to the payment of this fee for fertilizers which contain trace amounts of nitrogen.

SECTION 3. Section 455E.11 subsection 2(b)(3), Code 1991, the first unnumbered paragraph is amended to read as follows:

~~Of the remaining moneys in the account:~~ Fifty percent of the remaining moneys in the account are appropriated to municipal surface water supplies for capital costs of improvements to provide treatment to reduce levels of nitrates and pesticides. The funds shall be apportioned to eligible water supplies in a manner provided by rule for reimbursement of up to 50% of the total capital cost. The other 50% of the moneys which remain in the account shall be divided in the following manner.

ACCOUNTABILITY FOR SOLID WASTE TONNAGE FEES THAT LOCAL AGENCIES RETAIN

As of FY 1993, local agencies are able to retain 95 cents of the \$4.25 tonnage fee for various purposes, such as comprehensive plan development and implementation, closure/post closure requirements, installing scales, closing landfills, and building transfer stations. A critical element is saving funds for closure/post closure requirements. Currently, there are no reporting requirements which indicate how much money is set aside, and for what purposes. Requiring some reporting to the Legislative Fiscal Bureau, with a copy to DNR, would provide some accountability.

PROPOSED LEGISLATIVE LANGUAGE:

(code language will be ready at October meeting)

Director Wilson pointed out that there are three options for the Waste Oil Collection bill.

The consensus of the Commission was to go with Option 1.

Nancylee Siebenmann asked about the battery recycling bill that was proposed last year.

Director Wilson stated that he will check on that bill and report his findings at the October meeting.

Richard Hartsuck stated that he has a problem with the ban of glossy inserts under the bill dealing with Minimum Recycled Content of Newsprint. He commented that if glossy magazines are allowed it is difficult to justify not allowing glossy inserts in a newspaper.

Margaret PrahI questioned the bill on Accountability for Solid Waste Tonnage Fees that Local Agencies Retain, asking why the state has to get into it. She noted that a 28E Agreement would have provisions to address how any debt or obligations would be handled.

Margaret PrahI also expressed concern with the bill to Create an Environmental Trust Fund stating that the accountability of the legislature should be retained and not shifted over so that the legislature doesn't have to address the priorities on an annual basis. She added that from a government standpoint, Trust Funds create a reduction of accountability for elected officials and make it more difficult for the voter to understand what he or she is selecting. It also creates more conflict where you have an administration from one party, and a legislature dominated by another party, and everyone has a chance to point fingers and no way to get the job done.

Gary Priebe agreed with Commissioner PrahI noting that he simply does not like trust funds and the accountability issue bothers him.

Rozanne King stated that she vocalized her concerns last year and they remain the same.

Clark Yeager commented that the bill Establishing Fees on Pesticides and Fertilizers to Support Water Treatment Costs was not recommended by the Commission and it would go in the package under the guise as coming from the Commission.

Director Wilson stated that it would not go in the package without the Commission's approval.

Gary Priebe stated that he has a real problem with the fees on pesticides and fertilizers because agriculture has been hit hard enough. He noted that there should be an education program rather than fees and assessments. He added that he cannot vote for the legislative package if this bill is in it.

Director Wilson stated that he assumed the Commission approved of the bills they had not argued or spoken against.

Charlotte Mohr suggested approving the legislative package with the elimination of the Environmental Trust Fund bill and the Fees on Pesticides and Chemicals bill.

Motion was made by Margaret Prael to eliminate the Environmental Trust Fund bill from the legislative package. Seconded by Clark Yeager. Motion carried unanimously.

Discussion followed regarding whether to approve each bill individually or to wait until all of the bills are presented in October.

Nancylee Siebenmann stated that she feels that action was a little hasty.

Chairperson Hartsuck stated that he called for a vote without discussion so it is possible to reverse the action.

Nancylee Siebenmann stated that if the Commission is going to defer action on other bills, she would prefer waiting on the Environmental Trust Fund bill also. This would give Commissioners more time to study this bill.

Motion to Reconsider the Environmental Trust Fund bill was made by Nancylee Siebenmann. She asked that it be considered for final action next month. Seconded by Margaret Prael. Motion carried unanimously.

NO ACTION TAKEN ON LEGISLATION PACKAGE

Consensus of the Commission was to have each proposal presented and voted on, individually, at next month's meeting.

Margaret Prael stated that she would like to have the legislative package before the day of the meeting to allow the Commission time to study it.

ADDRESS ITEMS FOR NEXT MEETING

Speaker on Inerts (Paula Paul)

NEXT MEETING DATES

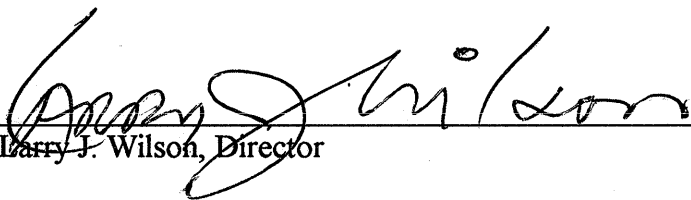

October 19, 1992

November 16, 1992

December 21, 1992

ADJOURNMENT

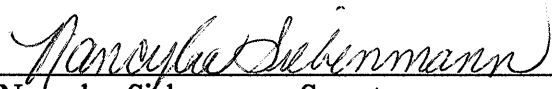

With no further business to come before the Environmental Protection Commission, Chairperson Hartsuck adjourned the meeting at 3:25 p.m., Monday, September 21, 1992.

Larry J. Wilson, Director

Richard Hartsuck, Chairperson

Nancylee Siebenmann, Secretary
